

Formosa Journey for Renal Patients (Seven Days Six Nights)

Mission :

In order to provide a normal lifestyle for renal patients, dozens of dialysis centers around Taiwan are contacted to arrange this trip for renal patients. We treat renal patients as esteemed guests. We strive to understand the needs of renal patients and matters of interest to them in order to provide the best dialysis care and services. We hope that dialysis patients will join our itinerary because they choose the dialysis centers that are ideal for their treatment.

Characteristics:

Dozens of dialysis centers across Taiwan provide quality dialysis services, and TMTDA also dispatches the delegation of nursing staff for care and services throughout the trip, to ensure that renal patients can have a safe and healthy Formosa trip.
